Hope for Stark County

With the election just days away, Stark County will be pivotal in deciding who will bring change to our country; however, one local organization isn't waiting for the election to change their community. GoStark is a collaboration of Stark County churches and organizations whose shared values, long term investment in the local community and deep sense of concern for its citizens motivate them to partner together for the betterment of Stark County.

GoStark was born out of a desire to simply serve Stark County in Jesus' name. Church leaders began to ask the question, "If churches across Stark County were to close their doors tomorrow, would anyone notice? Would anyone care?" GoStark's vision is for the church at large to be a vital part of bringing hope and revitalization to Stark County.

Each Sunday in November over 30 local churches will hear a common message emphasizing the foundational principles of community transformation: Prayer, Service, Love, Giving, and Unity. Each message will be a call to engage the community.

In addition, GoStark is coordinating Great Days of Service in which people across Stark County will have the chance to serve their neighbors. Great Days of Service will take place November 10-15. Specific work sites are being designated by geographical area and a list of opportunities is available on the website.
